The closest prior art is considered reference C, cited in this action. The most relevant foreign prior art patent document is considered reference N, also cited in this action. The feature that is considered patentable over the prior art is found in each of the independent claims 1, 3, and 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
